SEARCH FOR CLASSES

2. Use the Quick Links and select ‘Search for Classes’

Search for Sections

Course numbers must be 4 digits long. (e.g. ENGL 101 would be 1010 or the first unit of ENGL 101 would be 1011, second unit 1012, third unit 1013, etc.)

** NEW FEATURE **

You can now narrow your class search by location. Select classes from a specific campus, Learning Center or classes that are Web delivered by clicking the drop down arrow on the Location box at the bottom of this screen.

To find classes that will be offered, you will need to:

1. Select a term.
2. Select a subject. If you know the course number you can also enter that 4-digit number. *Do not enter extra spaces or decimals.*
3. If you are looking for only a night class, type in 4:00p.m. in this area.
4. You can enter a location if you know the campus you want to attend or the type of class you would like to take.
5. Click SUBMIT and you will get a list of options.
### Status:
This will let you know if the class is still open or has been closed. If closed, you can look for a different time.

### Location
This is the town in which the class will meet. World Wide Web classes are totally completed online. Learning Center classes are Independent Study classes. Click the Learning Center link to find out more information.

### Meeting Information
This will tell you when the class starts and ends, if it is a lecture or lab, what days and time the class meets, and the room number.

Some classes are individualized (you work independently at your own pace) with an instructor that is in the room but does not lecture. If you see a class like the one to the left that has labs listed below it, you will have to:
- select a lab that will go with that class. The lab will tell you the room number, days, and time the class will meet.
- All lab options are listed directly below the class.

### Section Name and Title:
If you click on the blue link, you will be able to see important information about the course such as the course description, the instructor’s email address, etc.

### Once you have identified some courses you may want to take:
- If you are a **NEW STUDENT**:
  1. Apply to CCC online at [www.cccneb.edu](http://www.cccneb.edu).
  2. Call/E-mail the Admissions office to set up an appointment.
