Faculty

Beth A. Thompson, RDH, BS, FACE, MFT

Beth celebrates 34 years as an RDH this year. She recently established the Florida Institute of Orificial Myology, LLC, a clinic and learning center for

health care providers in Port Orange, FL. Beth provides industry consulting services, continuing education programs, and corporate recruiting and placement. Her career has included clinical dental therapy, dental education, sales and marketing management, speaking internationally, and writing and consulting. She is a graduate of Indiana University and Past President of the Indiana Dental Hygienist's Association.

Beth has written and presented dental continuing education courses for the past 29 years. Throughout Beth's career, her leadership and innovative talents have been recognized in the industry. She is director and founder of CareerFusion, LLC, formerly CareerFlow, the only resource for dental hygiene career advancement.

Course Description:

Learn to build effective health partnerships with your patients. Eliminate the "just a cleaning" appointments by focusing clinical time to relationship building and achieving dental health goals. Discover how to address clinical dilemmas with comfort and confidence. Prepare for tomorrow today by individualizing your appointment schedule to address realistic, meaningful expectations from each appointment. New diagnostic tools for early decay detection and perio infection will be introduced, along with treatment implementation ideas to utilize now and in the future.

- Learn communication skills for effective use of clinical time
- Incorporate new treatment protocols
- Discuss how to measure successful treatment
- Discuss new diagnostic devices for early detection of infection
- Discuss effective utilization of adjunctive therapies
- Learn to effectively partner with your patients and team to co-treatment plan for predictable healthy outcomes
- Discuss effective homecare products and their uses
