

Why play a game when you can create it?

Free summer STEM enrichment program for middle school students

Every student deserves access to a better future. That's why we've launched the Verizon Innovative Learning STEM Achievers program— an engaging, hands-on program developed to enrich learning through design thinking, 3D printing, augmented reality, social entrepreneurship and mentorship. This program creates a more diverse pipeline for future careers in science, technology, engineering and math (STEM) fields; no prior knowledge or experience is required.

 **The program takes place over the course of one 4-week session. June 3, 2024 – June 28, 2024.**

 **Central Community College
550 S Technical Blvd, Hastings, NE 68901**
